CRUISER FLEET ALSO COMING TO PACIFIC.

Sixteen Great Fighting Ships to Be Sent
Ahead of Evans's Battleships.

Greatest Mobilization of Men-of-War in Time of
Peace—Arkansas and Tennessee to Set Pace Around
the Horn—Vessels in Far East to Hurry to California
Coast—Rear-Admiral Dayton to Command.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, AUG. 8.—[Exclu-
sive Dispatch.] Surprising re-
velations were made today through
the disclosure of well-guarded plans
of President Roosevelt and Secretary
of the Navy, with the support
of Admiral Dewey and other members
of the General Board of the Navy, to
mobilize at once in the Pacific Coast
the most powerful cruiser fleet
ever known anywhere in the world, in
addition to the Atlantic fleet under
Rear-Admiral Evans, the positive of-
ficial announcement of whose trip to
the Pacific was made a few days ago.
Orders have been issued for almost
the entire cruiser strength of the
Atlantic squadron to be sent across the
Pacific. Two new monster cruisers
will shortly be made for service. The
St. Louis is now making her way up
the west coast of South America, and
the Washington and Tennessee will
start out to join them before the close
of August.

SIXTEEN IN CRUISER FLEET.
In accordance with plans which
have been under way for several
weeks, it now develops that Secretary
Metcalf's constituents on the Pacific
Coast will have an opportunity of
viewing sixteen modern and capable
fighting ships, eight of the world's big-
gest armored cruisers and an equal
number of formidable protected cruis-
ers—before Rear-Admiral Evans sails
out from Hampton Roads with his
sixteen monster battleships to join them.

These plans—the transfer of the At-
lantic fleet to the Pacific and the mo-
bilization of the Pacific fleet off the
western coast of the United States,
augmented by half a dozen new
armored cruisers, call for the concentra-
tion of what will doubtless prove to
be the most formidable array of
warships of any one nation ever as-
sembled together in time of peace. In
fact, when Admiral Evans arrives off
San Francisco, he will be welcomed by
Rear-Admiral Dayton, commanding
another powerful fleet, which will be
almost as strong in aggregate ton-

nage and number of heavy guns as
the great battleship fleet.

WILL CREATE WORLD-STIR.
The plans promise to create as much
of a stir throughout the world as the
announcement of the decision of the
government to transfer the Atlantic
fleet to the Pacific.

Cruiser Washington.

The significance of sending the cru-
iser St. Louis around the Horn alone,
and sending the Washington and Ten-
nessee so far ahead of the battleship
fleet is now disclosed. They are to
become part of the new Pacific cruiser
fleet.

Reports are already making their way
to the Navy Department from Com-
mander Usher of the St. Louis, describ-
ing the details of his voyage, giving
information on coaling opportunities,
etc. The St. Louis is making a leisurely
journey for the purpose of ob-
servator, but the Washington and
Tennessee will endeavor to demon-
strate the lowest time limit possible
in making the journey from Hampton
Roads to Mare Island.

Rear-Admiral Bebb, who has been
specially designated to command these
two cruisers en route, will follow up
the observations of Commander Usher,
and doubtless arrangements will be
completed at all the principal ports
for coaling.

COAL SENT IN ADVANCE.
Already, it develops, merchant ships
are either being dispatched or engaged to
be dispatched at an early date with
cargoes of coal, to be shipped ostensibly
to Mare Island, but in reality to
Rio de Janeiro, to Punta Arenas
at the entrance to the Straits of Ma-
gellan, and to Valparaiso.

One of the reasons ascribed by the
Navy Department officials for the
mobilization of the two big fleets in
the Pacific is that it will give an op-
portunity for Admiral Evans to real-
ize the desire he has cherished for a
long time to go through battle tactics
with the largest possible force of
warships. This will give him a
chance to see what the big armored
cruisers, which are larger than any of
the older battleships, can do against
the biggest war dogs of today.

STOCKS GO LOWER; SELLING IS FRENZIED.

Fear of Further Government Pros-
ecutions and Big Railroad Fines
Cause Prices to Fade to Panic Fig-
ures—Alarm Aids Bears.

[BY DIRECT WIRE TO THE TIMES.]
NEW YORK, AUG. 8.—[Exclu-
sive Dispatch.] The Standard Oil
pros were again ripped out from
under the stock market today, and
prices began to fade to panic figures.
"The government sandbag is thump-
ing them down," said the big operators
as the tape unfolded the story of the
wholesale unloading of railroad and
trust securities and marked off fig-
ures well below the bottom prices of
the silent panic of March 10.

But during today's sensational de-
cline there was far from a silent panic
on the floor of the Stock Exchange. At
every break a roar of selling orders
went up from the floor, and the big
bulls that usually come to the rescue
had lost their voices.

FRANTIC SELLING.
During the first hour and a half
of trading, big and little exchanges
and the curb went wild, and the fran-
tic selling promised to make another
million share record.

A slight rally failed to revive any
optimism. Gloom had crept into all
fallen stocks when widely predicted
the government sandbag will be
theirs and the lucky bears smiled uncer-
tainly, not knowing just how the cat
was going to jump for them on the
next trading.

The principal product of an exten-
sive crop of rumors told against the
story of the \$25,000,000 fine against the
Standard Oil and the universal fear
of other huge fines. No one knew
where the government sandbag would
fall next, said those who rank as the
philosophers and forecasters of the
street.

SUGAR TRUST IN DANGER.
That the sugar trust would get the
next whack was widely predicted, and
though the officers of that company
declared that no suit was pending
against it and that its rebate troubles
had all been practically settled.

The railroads that had granted re-
bates to the Standard Oil, the Harri-
man and Hill roads in particular, were
sure to be swung on round, cried the
pessimists when asked for an opinion.
Then how are they going to pay di-
vidends? If the government goes in and
rifles their treasuries, where do the
stockholders come out?

Their don't come out was the an-
swer. Consequently they are getting
out, selling out at any sacrifice. The
sand-bag has filled the investing pub-
lic with panic. The unloading has be-
come a matter of life and death to
prices. It is going to be reached be-
fore long.

Many offered elaborate theories to
explain the panic of investors. You
could hear them on the inside and on
the outside.

HARRIMAN STOCKS HAMMERED.
Also you could hear rumors of a bat-
tle between E. H. Harriman and Dan-
iel G. Reid. They were said to have
fallen out over a deal between the
Chicago and Alton and the Rock Is-
land. All of the Harriman stocks would
be effected by this new warfare, it was
urged. Thereupon, the bears went to
work and clipped a few more points
off the Harriman stocks.

Then there was the picture of the
Standard Oil Company grimly pushing
the people by letting the market go
to the dogs.

The stock exchange was jammed

NEW BATTERY A TINY GIANT.

Inventor Discovers Method of
Making Electricity Cheap
Enough for All.

[BY DIRECT WIRE TO THE TIMES.]
MILWAUKEE (Wis.) Aug. 8.—
[Exclusive Dispatch.] In the
invention of an electric battery
made by Frank Curtis,
of Milwaukee, leading financial
and railroad men of the coun-
try believe a successful rival to
the Standard Oil Company
has been discovered. A com-
pany known as the Battery
Light and Power Company has
been organized with a capital of
\$5,000,000 to exploit the inven-
tion.

Among the men interested in
the corporation are Fred D.
Underwood, president of the
Erie Railroad Company; F. C.
Rice, superintendent of the Pull-
man Palace Car Company; Pres-
ident Huggitt, of the Northwest-
ern Railway, and A. W. Tren-
holm, general manager of the
Omaha Road.

Every house can be equipped
and lighted with its own indi-
vidual electric plant at a nomi-
nal cost. Automobiles may be
fitted out with the battery and
supply of chemicals carried
under the seat sufficient for
thousands of miles.

The invention is in the dis-
covery of new alloys to form
electrodes. The cost of the so-
lution will not exceed 5 cents
a cell.

A battery of fourteen cells,
attached to a switchboard con-
taining sixteen sixteen can-
dle-power lamps, maintained
the light at full candle-power
for from fifty-six to seventy-
eight hours. A runabout
equipped with an eighteen-cell
battery ran 200 hours on the
first charge of the solution.

THEO. V. HALSEY OPERATED UPON.

VERMIFORM APPENDIX REMOVED
AND HE MAY DIE.

Bribery Trial of Pacific Telephone
Company's Special Agent Indi-
cately Interrupted—Physicians Fear
His General Health as Low as Can-
not Recover.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, AUG. 8.—[Ex-
clusive Dispatch.] Theodore V. Halsey
of the Pacific States Telephone and
Telegraph Company, on trial for bribery,
was operated on for appendicitis to-
night, and has a slim chance of recov-
ery.

The trial, of course, is indefinitely
interrupted.

Mr. Halsey was taken sick Wednes-
day evening. This morning his con-
dition was reported as critical, and
tonight he was operated on at the St.
Francis Hospital by Drs. Shumate, Gal-
ley and Sweeney.

His appendix was found to be in a
dangerous condition, with abscess.
It is feared that the operation has
come too late. Dr. Galley stated to-
night, that, owing to the patient's low
condition of general health, the out-
come is extremely doubtful.

Dr. Galley said that there is no
immediate danger of death, but that
Halsey may not live more than a few
days.

TRIAL COMES TO AN ABRUPT STOP.

[BY THE ASSOCIATED PRESS—A.M.]
SAN FRANCISCO, AUG. 8.—The
trial of Theodore V. Halsey for bribery
was brought to an abrupt stop this
afternoon by the sudden illness of the
defendant, who is confined to his bed
with an intestinal affection, which, ac-
cording to his physicians, may neces-
sitate an operation.

When the ten jurors thus far se-
cured had been polled at the resump-
tion of the trial at 5 o'clock today,
Prosecuting Attorney Johnson called
the attention of the court to the fact
that Halsey was not present. Attor-
ney Schlesinger of the defense replied
that the absence was due to a serious
illness.

"Mr. Halsey's physician is in court,
your honor," he said, "and will so
testify."

Dr. Thomas E. Shumate was sworn,
and took the stand. Answering ques-
tions propounded by Mr. Schlesinger,
he said:

"Mr. Halsey is suffering with an
acute intestinal disturbance, the na-
ture of which I have not yet fully de-
termined. He is confined to his bed
at his home, where I saw him between
11 and 12 o'clock today, and it would
not be safe for him to get up. His
condition may necessitate an opera-
tion. I expect to call other physicians
into consultation on his case."

Dr. Shumate was cross-examined by
Mr. Johnson. He said that he has
been Mr. Halsey's physician for some
years.

"I was called to Mr. Halsey's home
by his wife before 5 o'clock in the
morning," said Dr. Shumate. "He was
not in bed."

"Are you aware, doctor, that Mr.
Halsey was in court yesterday after-
noon?" asked Mr. Johnson.

"I was subsequently so informed by
Mr. Halsey himself. This morning,
shortly before 11 o'clock, I was sur-
mised to be in the city."

BARRED BY LAW.

Thousands Repeat-
ers Can't Vote.

Supreme Court Upholds the
Validity of the Primary
Election Law.

Refused to State Party Affil-
iation When They
Registered.

Labor Unionites and Hearst-
ites Receive a Solar
Plexus Blow.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, AUG. 8.—[Ex-
clusive Dispatch.] Chief Justice
Beatty followed the significant
remark reported in The Times last Tues-
day morning by an able decision to-
day upholding the validity of the new
primary election law.

The act, which was passed by the
last Legislature, was held to be con-
stitutional in every particular.
The decision will affect over 600
voters, who refused to state their
party politics and swore in their reg-
istration to protect their rights. These
electors will not now be able to partic-
ipate in the coming primary elec-
tion, which may change the political
situation.

FATAL BLOW TO REPEATERS.
Also for the professional ward hea-
lers, who have been accustomed to sell
out to all the parties, one after an-
other. By Justice Beatty's decision
they will be obliged to "stay put." It
means a hard winter for the grand
repeaters.

The gist of Justice Beatty's decision
follows:
"If it shall sometimes happen a con-
scientious voter is converted from
one political faith to another between
the close of registration and primary
election, he must console himself for
the loss of his vote by the reflection
that his vote is trifling in comparison
to his share in the advantage to the
State of which he is a citizen. Having
from a measure evidently designed to
prevent unscrupulous and mercenary
electors from selling themselves free
down to the day of election to vote
with any other party, upon any cor-
rupt motive, for the purpose of influ-
encing the nominations of its candi-
dates for public office, while without
any interest in their success, and per-
haps with interest in their defeat."

OPPOSITION TO THE LAW.
The attempt against the new elec-
tion law was really made by the la-
bor unions, through one of their own
number. They had purpose of their
own in wishing to see it knocked out.
But not only the unions, but the hea-
lers and the Hearstites were yearning
to knock it out.

It is not generally known, but this
primary election law killed the Hearst
Independence League in California.

The principal provision of the law
is that upon registering, the voter
must declare to which political party
he owes allegiance. Only sixteen vot-
ers declared themselves to be mem-
bers of the Independence League, and
Hearst sent his minions out and the
party hurriedly declared they would
nominate no ticket.

The decision of Chief Justice Beatty
has caused general rejoicing, but was
along the free lunch route.

CHINAMEN MUST GO ON TOLOSAN.

DRAMATIC SCENE OF DESERTERS
IN FEDERAL COURT.

Twenty-four Celestials Who
Shipped from Germany Deserted at
San Francisco and Bought Relief
from the Tyranny of Their Masters
Compelled to Make Return Voyage.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, AUG. 8.—[Ex-
clusive Dispatch.] The Department of Jus-
tice at Washington today ruled that
the Chinese sailors who deserted from
the German tramp steamer Tolosan on
reaching San Francisco, should be sur-
rendered to the German Consul in that
city.

The sailors claimed that they were
barbarously treated on board the ship
and appealed to the Chinese Vice-Con-
sul at San Francisco for protection.
The Department of Justice, to which
the matter was referred, holds that
it has no right to interfere between the
ship officers and the crew.

A dramatic scene was enacted in
United States Commissioner Hancock's
courtroom when it finally dawned
upon the twenty-four Chinese deserters
that they would have to go back to
the vessel.

They had listened with anxious faces,
while negotiations were being made be-
tween the Chinese Vice-Consul and the
German Consul. When their repre-
sentative finally announced that he
had done all he could for them, and
their case was hopeless, a concerted
wall of despair went through the court-
room. Some of the Chinese threw
themselves on their knees before the
Vice-Consul and wildly implored him
to save them from a voyage back to
China on the Tolosan. Others cast
themselves prostrate and beat their

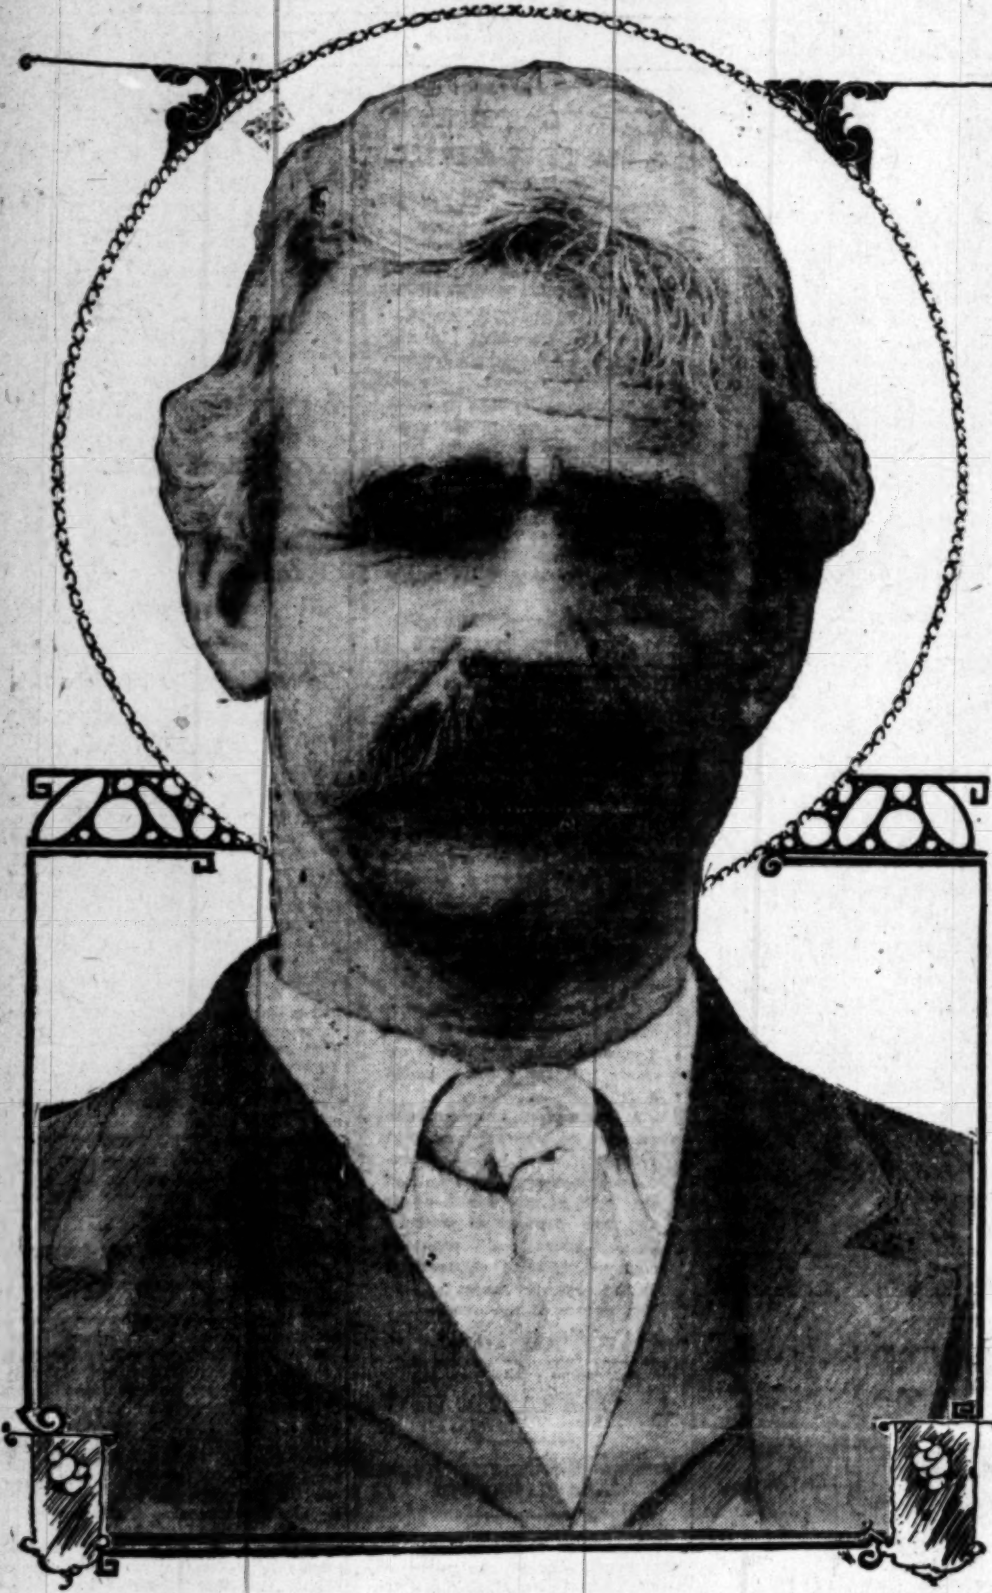

heads.

"I was called to Mr. Halsey's home
by his wife before 5 o'clock in the
morning," said Dr. Shumate. "He was
not in bed."

"Are you aware, doctor, that Mr.
Halsey was in court yesterday after-
noon?" asked Mr. Johnson.

"I was subsequently so informed by
Mr. Halsey himself. This morning,
shortly before 11 o'clock, I was sur-
mised to be in the city."

ROUGH-HOUSE MIKE'S HOLY WAR, SAN FRANCISCO'S LATEST WONDER.

MICHAEL CASEY.

"ROUGH-HOUSE MIKE" CASEY, that alleged paragon of all earthly virtues, is the man of the hour in San Francisco.

He is the head of the stampeding labor unionists who are trying to down Pinhead McCarthy. The struggle between these two men will be a whirlwind.

Casey has joined forces with E. J. Lynam, who was expelled from the State Legislature last winter, and with the Bulletin they have organized an independent labor party.

Their battle cry is "Vindicate the honor of the labor union." Casey has been in the councils of the Heney prosecution and was stated by all the union papers to be a candidate for the "big stick" mayoralty.

Although it is doubtful if the prosecution ever seriously considered him, it is a fact that he has been hand-in-glove with them. It was largely on account of dining with "Rough-house Mike" that a feeling of hostility against the prosecution has developed in San Francisco.

Every time any one has dared to speak in criticism of Heney or his associates, Francis Joseph has emitted a yell of rage.

Every one of his critics are "creatures of Calhoun," "grafters," "reactionaries."

His speech in Los Angeles is merely a sample of his speeches in this city.

Part of what Heney says is undoubtedly true. When you sweep through a city and indict about a dozen of the biggest business men in it, you tread on a variety of toes.

Every one knows that, around every corporation are a band of toadies and small fry who cheer when the corporation is joyful and shed tears when it is sad.

But the larger fact is that Heney's flirtation with the unions has been resented by men whose hearts were with the prosecution up to the time when Mike Casey, McCarthy and the "sons of the crusaders" business men have suffered too deeply from the ruinous tyranny of the unions.

Heney makes no secret of his union sympathies. When he returned from Los Angeles, he said to some of his friends, "Well, I guess I taught those people some things about labor unions."

In his present crusade, Casey may not have the moral support of the prosecution, upon the Mayor's behalf, or appointment of Mayor Taylor the prosecution gave its solemn pledges to stay out of politics. Any indication of supporting Rough-house Mike Casey, however, will be regarded with suspicion in San Francisco.

Mike is hardly the paragon they try to make out and his object in going into politics is not as holy as they make people believe.

Mr. Casey and the San Francisco Examiner are the ones directly responsible for Schmitz. Mike discovered Schmitz and the Examiner took him up and supported him. Both have the nerve to try to down him.

The night after election when the Examiner in the Mayor's behalf, so great had been Casey's connection with the rotten movement that Schmitz took office, that he was at that time generally regarded as the real Mayor and Gene had a miserable tool. Gene had to be a little too "fore handed."

Arthur describes and has turned it to his advantage.

That is the real secret of Mike Casey's purely political campaign, his "holy war" to "vindicate the labor unions."

He is trying, by a counter irritant, to destroy the power of Pinhead McCarthy and save his own power.

Among other things he claims to be trying to curtail the power of Herrin.

This is rubbish. There is in San Francisco a genuine move to crush the Southern Pacific. It may do a lot of good and may succeed in breaking the power of the Espino machine, but it will have to get rid of a lot of Mike Caseys and other undesirable citizens first.

THE TWO FACTIONS.

And so, upon the eve of the primary elections, the labor unions find themselves split into two angry factions.

One is led by Casey; the other by P. H. McCarthy and Thomas Egan.

The Casey party claims that the other faction is trying to reject Schmitz Mayor. The Egan-McCarthy gang claims that Mike Casey and his associates are trying to get control of the union party in order to kill it.

Some of the Schmitz crowd, like Sullivan, to his death, through the language of the Examiner, but they couldn't do anything to Mayor Phelan.

Mike got a mighty inspiration. He saw that if union men wanted to murder people on the open streets, the thing to do was control the police.

Then and there began the labor-union political movement. It had no other purpose than but to "fix" the police.

They "fixed" the police all right, as Jerry Dunn showed all too plainly during the present car strike.

But something happened that Mike hadn't reckoned on.

He got a bunch of politicians into the unions and he couldn't stop them, or get them out.

What happened can be told in the language of Walter McCarthy, who is perhaps the best-educated labor leader in San Francisco, although he was at one time a common sailor before the mast.

WHAT MARTHUR SAYS.

"The control of the unions gradually passed from the old-time labor leaders who had been for years in the movement. It went into the hands of a new class—political labor men. These were men who, before the entrance of the unions into politics, had had small influence in the unions; who had, in fact, been regarded as idlers and hangers-on. They had more time and more inclination to do politics than the genuine workers. As we got deeper and deeper into politics, the voices of the union leaders came to have small weight, and these other fellows, 'trash' the unions were."

Our of this grew the conspiracy of Pinhead McCarthy, already detailed in The Times.

It is too long and too complicated a story to go over again, but the gist of it is that McCarthy is plotting to make California industrially at bay, destroying the influence of all the other leaders and making himself a king. He has seized upon the situation.

at once took steps to secure the property.

HONEYMOON WITHOUT HUBBY.

A honeymoon with the husband left at home is the unique manner in which Mrs. E. J. Bowen is celebrating her wedding. The bride, who is 21 years old, was Miss Mabel Upham, until last Friday, when she married E. J. Bowen. Two hours later she left by boat with a girl friend as her only companion, to spend four weeks at Washington Island, in Lake Superior. She will not see her husband until she returns.

MAGILL TO TRIAL SOON.

CLINTON (Ill.) Aug. 8.—(Exclusive Dispatch.) The Circuit Court will again convene in Duwitt county tomorrow, and the question of an immediate trial for F. H. Magill and Fay Graham Magill, charged with the murder of Mrs. Pet Magill, will be given early attention by Judge W. G. Cochran. It is expected he will rule against a motion for delay.

STORM SWEEPS ST. LOUIS.

ST. LOUIS (Mo.) Aug. 8.—(Exclusive Dispatch.) A heavy storm swept over this section today. The wind blew at the rate of thirty-two miles an hour, doing considerable property damage in the outskirts. Roofs were lifted from buildings and trees were blown down. A number of heat prostrations were reported before the storm broke.

OBITUARY.

Dr. E. B. Buckner, of Lincoln (Neb.) Aug. 8.—Dr. E. B. Buckner, president of the National Society for the Prevention of Cruelty to Animals, author of the book "Immortality of Animals," and a writer of prominence, died last night at Omaha.

RAILROAD RECORD. ROAD TO MOVE OUT OF STATE.

L. and N. Threatens Revenge
on North Carolina.

Will Pull Spikes and Quit
Because of Rate Law.

Western Part to Be Isolated
If Line Departs.

(BY DIRECT WIRE TO THE TIMES.)

ASHEVILLE, N. C., Aug. 8.—[Exclusive Dispatch.] Residents throughout the western part of the State are much disturbed over the threats of the Louisville and Nashville Railroad, since it has been determined to enforce the new passenger-rate law.

The road is preparing to discontinue all business, abandon its tracks in this State and move out. It had been making extensive improvements in its roadbed, and was spanning the Hiwassee River with an iron bridge. All this work has been held up, however, and the material has been moved across the State line into Georgia. All the freight cars have been moved out of the State into Georgia.

The road has only a few miles of track in this State, but its removal means the complete cutting off of railway facilities in the extreme western section.

ALABAMA SETTLES FIGHT WITH ROADS.

(BY THE ASSOCIATED PRESS—P.M.)

MONTGOMERY, Ala., Aug. 8.—Gov. Comer and the officials of the Southern Railroad reached an agreement late this afternoon, and the license of the railroad in Alabama will be reinstated. Beginning September 1, 1907, the railroad and allied lines will put into effect the two-and-a-half-cent passenger fare act and the measure reducing the freight rates on 110 commodities commonly shipped in Alabama.

The agreement was not reached without concessions being made on both sides, but in the main it is a victory for the State. The laws in question will not be put into effect permanently. The agreement specifically declares that the railroad's responsibility for the final determination as to their constitutionality and whether responsibility is finally rendered by the court of last resort.

Meanwhile, the laws enacted by the Legislature at its winter session, affecting the railroads of the State, will remain in force.

FAILS TO EARN DIVIDEND.

New York Central Railroad Earnings
Fall Below Par in Six Months.

Ending With June.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, Aug. 8.—The New York Central Railroad Company has not earned its dividend for the six months ended June 30, as shown by the company's statements issued today.

The sum earned and available for the dividend, after all charges, for the last year was \$2,947,281, while the sum required for the semi-annual dividend to stockholders at 3 percent is \$3,324,540, or \$2,417,259 more than was earned.

TACOMA LOSES FIGHT. ROAD UPHELD BY COURT.

(BY THE ASSOCIATED PRESS—P.M.)

TACOMA, Aug. 8.—An opinion has been handed down by Judge Clifford and Reid, of the Superior Court of Pierce county, denying the application of Messrs. Whitehouse and Moller, as members of the Chamber of Commerce of Tacoma for a writ of mandamus to compel the Northern Pacific Railroad to operate its through trains direct to and from Tacoma, instead of being delivered by going from Puyallup to Seattle and back and thence over the Palmer Cut-off.

The contention of the parties was that the stub train service was a violation of the charter. The case will be appealed to the Supreme Court.

DECLARES REGULAR DIVIDENDS.

Union Pacific Settles Question by Fixing Amount at Two-and-a-Half Per Cent. Semi-Annually.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, August 8.—The directors of the Union Pacific Railroad Company declared a regular quarterly dividend of 2 1/2 percent on the common stock this afternoon. The last dividend amounted to 2 1/2 percent, but was not designated as regular at that time. The directors have declared a semi-annual dividend of 2 1/2 percent on the preferred stock.

FEDERAL GOVERNMENT NOT TO RUN AMUCK.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Aug. 8.—[Exclusive Dispatch.] Acting Atty.-Gen. Russell set at rest today some of the stories that the department was about to engage in nothing less than wholesale prosecutions of railroads and alleged trusts. Mr. Russell intimated rather sharply that the imaginations of some people had been running away with them. He said that if the department was to undertake all that it was credited with being about to undertake, the force would have to be increased tenfold.

The tone of the official's statement makes it certain that all justifiable prosecutions will be entered upon, but there was in his remarks that which has been interpreted as a reiteration of the President's statement that the government has no intention of running amuck.

One pertinent word of the acting Attorney-General was to the effect that when the department has been at work a while longer there would be a resounding and less tainted prosperity.

In Mr. Bonaparte's address, officials of the Department of Justice will not discuss for publication details of a number of small trust reports which have been received. It is understood, however, that they relate to several industrial combinations, such as the lumber trust, the hardware trust, the furniture trust, etc.

Among officials here the belief is that hints as to possible prosecutions generally to the Harman and possibly to some Standard Oil men of high station.

A large brewery at Santiago, Chile, has been consumed by fire, with considerable loss of life. Carbonic acid pipes exploded, killing and wounding forty persons, among them being firemen, policemen and spectators.

CHINAMEN MUST GO.

(Continued From First Page.)

hands upon the floor, tearing their hair in their frenzy of mingled rage and despair. United States Marshall Elliott and his deputies tried in vain to restore order. Sobs, curses, shouts of vengeance, cries of anger and declarations of defiance echoed through the room. It was a quarter of an hour before the men could be quieted.

When the time arrived to take the men to the Howard street wharf, there to embark in launches and be taken to the Tolosan, there was another uproar. Many of the Chinese refused to get up from the floor even after they had been handcuffed and had to be lifted bodily.

Two of the most unruly were fastened together by a chain. They were marched down stairs and loaded into two cages, guarded by a detachment of half a dozen Federal officers, started on their journey to the Howard street wharf.

The Chinese were then taken aboard the Tolosan in launches. They sat stoically in the boats, but as they neared the ship many again broke out in sobs and expostulations against going aboard.

The German officers were disposed to feel very bitter against the men who testified against them at the hearing.

STONE FOR VICTOR HUGO.

Simple Monument to Be Placed in
Memory of "Immortal Bard of
Waterloo."

(BY THE ASSOCIATED PRESS—P.M.)

BRUSSELS, Aug. 8.—A simple druidical stone is to be placed at Waterloo in commemoration of Victor Hugo. The sponsor of the movement is Count Louis Cavena, who has directed the activities for the preservation of the souvenirs of the great battle, and it is he that has given the ground upon which will be erected the simple monument.

The inscription will be "To Victor Hugo, Immortal Bard of Waterloo." The memorial will be dedicated toward the end of the year and a feature of the exercises will be a banquet at the hotel, where Hugo wrote the celebrated chapter of "Les Miserables."

WOULD REVOKE CHARTERS.

State Superintendent Vandiver of
Missouri Files Complaint Against
Insurance Companies.

(BY DIRECT WIRE TO THE TIMES.)

JEFFERSON CITY, Mo., Aug. 8.—[Exclusive Dispatch.] State Superintendent Vandiver today asked Atty.-Gen. Hadley to either file a proceeding to revoke the charters of three fraternal and one mutual fire insurance company, or to advise him as to his authority to revoke the license on his own finding. The fraternal companies are the Fraternal Bankers of America, the American Benevolent Association, and the Royal Fraternal Union. The fire insurance company is the Mercantile Town Mutual.

Regarding the latter company, Mr. Vandiver said that about June 1, 1907, which the company has not accounted for in its report to the insurance department, he had learned that the company had been sold to a new owner.

Mr. Vandiver says he will institute proceedings to revoke the charters of the three fraternal companies, and will also advise him as to his authority to revoke the license on his own finding.

The rule in civil actions is that bond shall be given by the defendant within a few hundred dollars more to cover the costs.

\$50,000 BOND POSSIBLE.

Special Atty. Dist. Atty. Wilkerson,
who was hastily summoned by telegraph from Northern Michigan, will ask that the same rule obtain in this case. Should this contention be sustained, the bond of the company would be \$50,000 and it would be a difficult thing to get for the Standard Oil Company to secure it.

Mr. Wilkerson said that he would have to go to St. Louis to see the bondsmen. The attorneys for the company will make a determined effort to have the bond made in Illinois by the company.

The action of the Standard Oil attorneys in thus making an early appeal to Judge Grosscup has been called on by the government's attorneys. It was thought the last sixty days of the trial would be a long one.

James J. Butler is president of the company that owns the oil. W. H. Allen is vice-president, and Peter G. Lynch, secretary and treasurer. Col. Edward Butler, Lehighville, and Thomas Ward McManis are members of the board of directors. Mr. Price, lawyer, is one of the large stockholders.

CAR STRIKE SCHEME OF SCHMITZ.

Deserter Head of Union's Secret Service Bars Plan of Former Mayor to Pose as Hero.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, Aug. 8.—[Exclusive Dispatch.] A St. Louis syndicate which owns copper mines in the Whitewater region of the Burro Mountains, near Silver City, N. M., has refused to sell its property to the Guggenheims for \$5,000,000. Five different times a representative of the Guggenheims has visited St. Louis to get an option on the property. The St. Louis people would not consider anything less than a fabulous offer. If they sold at \$5,000,000 the profit would be more than \$4,000,000.

James J. Butler is president of the company that owns the oil. W. H. Allen is vice-president, and Peter G. Lynch, secretary and treasurer. Col. Edward Butler, Lehighville, and Thomas Ward McManis are members of the board of directors. Mr. Price, lawyer, is one of the large stockholders.

Hurrying to Judge Grosscup's courtroom, Attorney Perkins found the court with a blank bond and writ of error detailing 12 exceptions to the judgment of the lower court.

Mr. Perkins said that he had repeatedly refused to do so, but he consented to let the matter go over for a day on condition that the District Attorney, or his special assistant, be summoned.

"I wish you would agree to a continuance for a week," Mr. Perkins refused to do so, but he consented to let the matter go over for a day on condition that the District Attorney, or his special assistant, be summoned.

"Well, there are evidently other persons in the same box with me. No body can tell what will happen to any one."

Mr. Harriman said he had repeatedly changed the date for his proposed trip to the West, and that at present his vacation appeared to be "up in the air."

STANDARD PROTESTS TAX ASSESSMENTS.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Aug. 8.—[Exclusive Dispatch.] General retrenchment all along the line was revealed by the Standard Oil Company today, when, through its Chicago counsel, Alfred Eddy, a protest was made to the Board of Review against its Cook county assessment. The properties of the combine at Clybourne and Hawthorne avenues and on Frost street were the bones of contention.

The front-street plant was valued by the assessors at \$1,117. This the Rockefeller concern deemed excessive and used an affidavit that half that amount would be fair. The board showed compassion and cut the price to \$617.

The second valuation on the Clybourne-avenue plant was wiped out altogether, as it developed that the property had been assessed twice.

hearing. The taking of testimony will mark the actual beginning of the government's fight to overthrow the Standard Oil Company, and the seventy or more subsidiary corporations allied with it.

The contest at the hearing was the time set for the hearing, Asst. Dist. Atty. Parkin learned of it and later he secured a continuance until tomorrow.

Had the writ of error and the superedeas been granted without the knowledge of the government, it would have prevented the Federal authorities from issuing an execution on the judgment issued by the Standard Oil Company by Judge Landis last Saturday. But the worst thing from the standpoint of the government, would have been the fixing of an appeal bond at a figure insufficient to cover the costs in the case.

It is admitted that the proceedings contemplated for today are unusual in that the bill of exceptions had not been filed in the court where the judgment was rendered. There is nothing illegal in this action, however.

The contest at the hearing and tomorrow will be over the amount of the appeal bond. This is a question which the Circuit Court must decide before it can decide before in a criminal case. The rule in civil actions is that bond shall be given by the defendant within a few hundred dollars more to cover the costs.

STANDARD NEARLY STEALS A MARCH.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Aug. 8.—[Exclusive Dispatch.] Standard Oil attorneys all but gained a point on the government today. With scant notice to the District Attorney's office, they applied to Judge Peter S. Grosscup of the United States Circuit Court for a writ of error and a superedeas to the government's fight to overthrow the Standard Oil Company, and the seventy or more subsidiary corporations allied with it.

The contest at the hearing was the time set for the hearing, Asst. Dist. Atty. Parkin learned of it and later he secured a continuance until tomorrow.

Had the writ of error and the superedeas been granted without the knowledge of the government, it would have prevented the Federal authorities from issuing an execution on the judgment issued by the Standard Oil Company by Judge Landis last Saturday. The Mint was the principal speaker at tonight's joint session of the Upper Des Moines and Editorial Association, composed of Iowa newspaper men. Mr. Roberts is one of the original members of the former association.

In his address Mr. Roberts discussed the tendency to enlarge governmental functions, and the difficulties to be met in such efforts. He said in part:

"For a concrete illustration, take the situation now presented by the enactment of the new Federal railway legislation and the public utilities act of New York State. These acts undoubtedly embody a sound public policy. The public control of monopolies whose services are necessary to the community is inevitable. That argument is over, but the problem, I believe, is yet to be dealt with. Nothing is disposed of by merely turning it over to the government to be managed."

"I perfectly approve your suggestion," answered the physician.

"Have you diagnosed Mr. Halsey's case?" Mr. Johnson asked.

Dr. Shumate replied: "As to that I don't think I should go into details. That is a matter between Mr. Halsey and myself."

Judge Dunne agreed with the witness in this and an inaudible conversation was carried on between them briefly. At its conclusion, Dr. Shumate said:

"If all is favorable and no operation is necessary, Mr. Halsey probably will be able to return to court by next Monday."

Judge Dunne instructed Dist. Atty. Langdon to call upon either Dr. J. Wilson Shields, Dr. W. W. Kerr or Dr. Herbert Wallen and retain him to examine Mr. Halsey and report to the court his condition.

Adjournment was taken until 10 o'clock tomorrow morning, at which time the court will be put in possession of the further facts of Mr. Halsey's case.

**SCHMITZ GLAD TO
GET FRESH BREATH.**

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, Aug. 8.—Former Mayor Schmitz was the only defendant to appear this morning before Judge Lester, when an order was made postponing until next Wednesday a decision on the motions to set aside the indictments against Schmitz, Abe Ruef, Patrick Calhoun, Tiley L. Ford, Thornwell Mulhally, William M. Abbott, Frank G. Drum, John Martin, Eugene De Ralio and Louis Glass.

The presence of Schmitz was not necessary, but the calling of the case gave him an opportunity to come into town and get temporary release from the county jail.

The July report of the London Board of Trade shows increases of \$1,827,050 in imports and \$3,047,000 in exports. The principal increases in imports were \$1,000,000 in raw material and \$1,000,000 in food and manufactured articles. The main increases in exports were \$1,000,000 in manufactured articles and \$500,000 in coal.

There is no occupation in the world with which a man can worthily be more content than that of editing the newspaper. He has a business, and in it, if he has the true spirit of his profession, the money-making features become subordinate and incidental; his heart is in the public concerns to which he devotes his pen.

"The most rational ambition a man can have is to be independent, to have money to care independently of those dependent upon him, hold a responsible position in the community and be able to exert an influence upon his fellows. No other occupation realizes these aims more completely than that of the editor, particularly, the editor who owns his paper and writes his heart's convictions."

The July report of the London Board of Trade shows increases of \$1,827,050 in imports and \$3,047,000 in exports. The principal increases in imports were \$1,000,000 in raw material and \$1,000,000 in food and manufactured articles. The main increases in exports were \$1,000,000 in manufactured articles and \$500,000 in coal.

"Sell All Wash Suits at 50c on the Dollar"

Says the Management

bold, decisive price cut, embracing every woman's wash suit in stock, a fitting head-
line for Bargain Friday.

Coat Suits of linen, poplin, pique and Indian Head. Prince Chap and Cutaway Coat Suits. Eton and Pony Coat Models. Box Coats and Semi-Fitting and Tight-fitting styles. Fancy Jumper Suits.

All are slated for a quick good-bye Friday.

Pinks, blues, browns, gray, tan, white and natural linen colors. Also striped and checked linen suits, the latter finished with Persian embroidery. Remember, we embrace every wash suit in stock.

Bear in mind that Broadway regular prices are considerably lower than you'll find elsewhere—that makes the importance of this clean-up much greater.

We're making room for new fall stocks arriving, that's the undercurrent of this movement. Every price is cut right into from present low regular prices.

ST ROUGH RIDER RULES NEW MEXICO.

George Curry, Inaugurated Governor, Is Independent in Politics and Wants Statehood, Singly With Arizona.

(BY DIRECT WIRE TO THE TIMES.)

AT the Palace Hotel closed the inaugural ceremony. New Mexico's Governor, Capt. George Curry, was inaugurated this morning in the presence of a great crowd. Curry was inaugurated in the capitol building, the ceremony being administered by Chief Justice J. Mills of the Territorial Court. Curry was at the time a staunch Democrat and had been all his life. Returning to the United States he enlisted and went to the Philippines with the volunteers and was the first American chief of police of Manila. He put the Manila police force on a permanent basis before he gave up the position as chief and is now said to be one of the best disciplined forces in the world.

SUBDUED PULAJANES.
Two years ago he was selected as Governor of the island of Samar, and it was there that he distinguished himself. The island was infested with the troublesome Pulajanes, and Capt. Curry was given credit for putting down the insurrection in the island and restoring peace and prosperity there. Upon the removal, last June, of H. J. Hagerman, known as the "boy executive" of New Mexico, after having served but fourteen months of a four years' term, there was the usual scramble among politicians in the Territory to land the executive plum. President Roosevelt, in his characteristic way, did the unexpected thing. He had, before Curry's departure for the Philippines, promised him a Federal office in New Mexico at the first opportunity. This was the opportunity, and Curry was appointed. The appointment came as a distinct surprise to Republicans and Democrats alike, as Capt. Curry had never been thought of as Hagerman's successor. When Curry received a cablegram from President Roosevelt telling him he had been appointed, he answered that he did not want the job, as he had some work in the islands which he wanted to finish. The President then cabled that he would be given time to finish his work, but that he must accept.

IS AN "INDEPENDENT."
The new Executive is what one would call an independent in politics. He is, and has been, a life-long Democrat, but, like many other Democrats, is a Roosevelt man, and agrees with all the President's policies. He has been absent from the Territory eight years, and therefore is not affiliated with any faction or clique, and it was this more than anything else, that led to his appointment. He comes to New Mexico unprejudiced, and as he expresses it, "with no friends to reward nor enemies to punish."

What the new Executive will do as

GRAVE OPENED, SKELETON FOUND.

MURDERER TOLD WHERE BODY WOULD BE LOCATED.

Steve Adams New in Jail Awaiting Trial for the Killing of W. J. Barney, Whose Remains Were Exhumed Today, Confesses to Being Perpetrator of Grisly Crime.

(BY THE ASSOCIATED PRESS—A.M.) DENVER, Aug. 8.—A special to the News from Telluride, Colo., says that what is said to be the skeleton of W. J. Barney, the timberman, who was killed by the Smuggler-Union mine, who mysteriously disappeared in June, 1901, was exhumed yesterday afternoon near the Alta mine, near Gold King basin, twelve miles from town, by Gen. Bulkley Wells, manager of the Smuggler-Union Mining Company, and others.

According to Wells' account the remains were found in an improvised grave, and its location was pointed out by Steve Adams, now in jail in Idaho, awaiting a second trial on the charge of murder, when he was here in June, 1906, in custody of Wells.

It was after Adams made the alleged confession which he afterward repudiated, and in which he is supposed to have acknowledged the assassination of Arthur Collins, formerly general manager of the Smuggler-Union mine, and to be familiar with the places where the bodies of W. J. Barney and Wesley Smith, shift boss of the Liberty Bell mine, were buried.

Adams was brought down here by Gen. Wells to point out the graves of the missing men. When Wells and Adams went up into Gold King basin there was more snow on the ground than had been anticipated, and several years having elapsed since the body had been buried, Adams was unable to determine exactly where the grave was. He showed Collins the place, according to the best of his recollection. Adams evidently gave an accurate description of the place, for it is understood the difficulty was experienced, in uncovering the grave.

A part of the body, a skeleton, most of the teeth and that portion by which identification could be made, were readily established, was brought to town by Gen. Wells.

Barney incurred the ill-will of the union here by working at the Smuggler mine after the strike in April, 1901. It was this strike that caused the riots of July 3, of that year. Adams is said to have told Wells that Barney's body was stripped of his clothing, which was buried in another place.

While here in 1906, Adams is said to have pointed out to Wells the tree, in the darkness of which he claimed to have stood, when he fired the charge of buckshot into the back of Miner Collins. He is also said to have told Wells where he threw the cartridge after removing it from the gun.

JOHN D. LONG IMPROVING.
BRUNSWICK, Aug. 8.—Former Secretary of the Navy, John D. Long, is reported to be improving.

SMOKERS HAVE TO CALL FOR LANTA'S SING.
LANTA'S SING is the only one of its kind.

RUSSIA NOT TO BORROW.

Minister of Finance Declares He Will Keep Paris Agreement—Against New Fleet.

(BY THE ASSOCIATED PRESS—P.M.) ST. PETERSBURG, Aug. 8.—Minister of Finance Kokovtsov denies that Russia has any foreign loan in contemplation and says he does not intend to carry out any credit operations before the expiration of the two years' period stipulated in contracting the last loan at Paris in April, 1906.

The Vremya today published an editorial, in which it protests against rebuilding the Russian fleet, basing its argument on the overwhelming superiority of the German and British naval forces in the Baltic and of the Japanese on the Pacific.

Ten or fifteen years, according to the paper mentioned, will not give Russia time to create a fleet capable of successfully competing for the command of either ocean, hence the Russian warships would again be compelled to seek the shelter afforded by the coast batteries.

Under the circumstances, therefore, the Novoye Vremya says, the best policy is to build fortresses, torpedo boats and submarine boats.

SEVERE ELECTRIC STORM.

Towns in Nebraska Are Visited by Most Terrible Windstorm of Recent Years.

(BY THE ASSOCIATED PRESS—A.M.) LINCOLN (Neb.), Aug. 8.—Eastern and southern sections of Nebraska were last night visited by one of the worst wind and rain storms in recent years. In Lincoln more than two inches of rain fell in a short time, the downpour being accompanied by a dazzling electrical display.

At Fremont the electric wires were blown down, and the city was in darkness. Trains were reported late last night, but resumed their schedule this morning.

BAN ON HORATIO ALGER, JR.

Books of Noted Writer of Boys' Stories Barred from Massachusetts Library.

(BY THE ASSOCIATED PRESS—A.M.) WORCESTER (Mass.) Aug. 8.—The works of Horatio Alger, Jr., the noted writer of books for boys, have been barred from the shelves of the Worcester Public Library.

Alger is now in the same class as Mark Twain, Robert W. Chambers, Walt Whitman and other well-known producers of literature, some of whose works have been barred from the public libraries in Worcester county towns and cities.

At the library the reason given for barring Alger's books is that they are untruthful and too sensational.

WHEN SLEEP FAILS

Take Horsford's Acid Phosphate. It is a compound in half a cup of water. Half a teaspoonful brings refreshing sleep.

WILLIAMS WINS
JACKSON (Mass.) As Democratic State Executive today declared John Williams the nominee for U. S. Senator.

The canvas of the returns showed a majority of 443 votes for Williams, with totals being as follows: 496; Vardaman, 54,948.

There was no contest over the result. After a short conference between the two factions it was agreed to abide by the returns as furnished Secretary of State Power from the various States. A motion to make Williams the nominee was seconded.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Two new gas companies applied for permits yesterday to build plants in the city limits, and the Fire Board is involved in a merry war.

The Fire Underwriters, through Inspector Porter, have submitted to the Council a list of improvements for the fire department consisting of \$240,000.

The newspaper reading room of the public library has been removed to quarters in the Baker block on North Main street.

The ruling of the Supreme Court in regard to the method by which Los Angeles township justices shall be paid resulted yesterday in the payment of delayed salaries to Justices Selph and Sumnerfield.

Louis Hoffman, in jail, yesterday secured the filing of an answer to the complaint for divorce filed by Laura Hoffman.

Japanese witnesses against the illegal liquor sellers in Little Tokyo testified in the Police Court yesterday that their counterparts had threatened them with death if they aided the police.

AT THE CITY HALL.

GAS RIVALS NOW WANT PERMITS.

ELDER'S APPLICATION SHROUD-ED IN MYSTERY.

Santa Fe and Vernon Avenue Selected as Locations for New Companies—Commissioner Schwamm Has Visions of Fifty-Cent Gas. Fire Board Will Investigate.

Ralphburn war among gas companies was inaugurated yesterday, when competing concerns applied to the Fire Board for permits to erect gas plants inside the city limits.

The City Gas Company made a parade of its officers and stockholders, and wanted immediate action on its application for permission to manufacture gas on a seven-acre tract, bounded on East Eleventh street and Santa Fe avenue. General Manager Ross said that the company will be manufacturing gas by January 1, if the city will make haste in granting the permit for the gas works.

The second application is shrouded in mystery. It asks for permission to establish gasworks on property at the southwest corner of Vernon avenue and Arlington street. It is signed by Charles A. Elder, Attorney Percy Thompson brought the application to the clerk of the Fire Board, Mr. Thompson was one of the chief speakers yesterday afternoon, and Mr. Elder did not attend the meeting of the board.

In the corridors the speculation was made repeatedly that the Elder application is made for the Phillips Gas Company, and that this company will erect a \$200,000 plant as soon as the necessary permits are secured.

Fire Commissioner Schwamm says that the Elder application is a "ringer" that it is presented for the purpose of embarrassing the City Gas Company in its attempt to secure a permit.

Schwamm welcomed the City Gas Company with open arms. He sees in this company an independent concern that is going to "bust the trust" and send the price of gas as low as 50 cents a thousand. He said that the property owners on Santa Fe and Vernon avenues may have something to say about the location of gas plants on those thoroughfares.

When the Elder application was read, Schwamm began to have "suspicions." He wasn't certain that the board should receive the application at all; it might be used as a club to injure the City Company.

Both applications were referred to Chief Ide for investigation and report.

The location for the City Gas Company's plant, consisting of seven acres of land, bounded by Santa Fe avenue, Tenth and Eleventh streets, and the main line of the Fire Commission, was purchased through J. W. Wilkinson, with W. M. Garland & Co. for \$10,000. The Southern Pacific and Santa Fe roads have a right of way through the property, and it will be easy to transport the necessary building materials to the site, and to haul them more than once. The tract is bounded on the north by the river, an oil refinery and several machine shops. The city incinerator is to the south, and the Hauser Packing Company on the west, while on the east is the railroad yards and right of way.

A. Ross, general manager of the City Gas Company, said yesterday: "We hope to begin work on the plant within two weeks. The application for a permit to erect a gas plant was made with the Fire Commission. As soon as the permit is granted, work will be begun, and we hope to have part of the plant in operation within three or four months, although if there are labor difficulties, or delays on account of freight, we may be longer building it than we anticipate. We are planning to erect a storage holder, with 1,000,000 cubic feet capacity, and a relief holder with capacity of 150,000 cubic feet, as a start. These two containers and the gas manufacturing machinery will be valued at \$200,000 and \$400,000. Part of the structural steel already is on the ground, ready to commence work, and we also have several hundred thousand dollars' worth of pipe ready to be put in the trenches. This last item alone will cost between \$100,000 and \$400,000 during the first year of operation, and as we extend the service, we will become more and more costly. We will begin by laying six-inch mains in three directions, for a distance of perhaps three miles. Then the diameter will be reduced to twelve and finally to ten-inch mains for the trunk lines. The machinery for the manufacture of the gas will be of the very latest pattern, and there will be no smoke and odor."

FIRST STEP NORTH.

The first step has been taken toward moving the city offices north of First street. A newspaper reading-room, the Public Library has been secured in the Baker Block. There, four times the floor space will be devoted to the press than it now occupies in the garage of the City Hall, and the location will be much more agreeable.

The newspaper room has had many vicissitudes. A dozen years ago it found impossible to accommodate it in the library quarters and it was transferred to the Chamber of Commerce.

Commerce tired of it and a year ago last spring it was moved again to the City Hall. The Board of Public Works generously granting it space vacated by the library. Even in the City Hall it had two moves and a half-half being when the attack was being fitted up for it. The Board of Public Works, however, gave a better room in the City Hall beside the present office of the City Engineer. The crowding of the City Hall made it necessary for the board to evict this reading-room, and the library directors, after considerable search, have secured quiet and pleasant rooms as above stated.

In the new quarters there will be room for more racks. It also is intended to have a page in attendance all the time. This is to avoid mutilation of the files, which have suffered severely in the past.

MAKERS OF HISTORY.

WHEN THE "GRINING PAME." One of the most important and interesting documents on the early history of California has never yet been published and is practically inaccessible to students. This is the diary of Fray Pedro Font, the Franciscan missionary who accompanied the expedition of Capt. Juan Bautista Anza from Tucson in 1774 to the founding of the city of San Francisco. This was one of the record expeditions in western history; for Capt. Anza—who is later Governor of New Mexico and a great Apache fighter—carried 300 colonists through the then fearful desert without the loss of a human life. Father Font was the historian of the expedition and an extremely reliable and interesting writer. In the diary is the account of the famous John-Carter Brown Library of Providence, R. I., and is of enormous value. Several years ago the late lamented Dr. Elliot Coues made a loan copy of the diary for the Bureau of Ethnology and was to have published it with a translation; but his untimely death prevented this great service to history. Through personal application in Washington in June, City Librarian Lummis secured the loan of this valuable document for the Los Angeles Public Library to copy, and a transcript is now being made. The diary will be bound for the library archives, and it is hoped that at some time the library may father the translation and publication of it.

CLASSIC HELLO GIRLS.

NEW BRANCH LIBRARY. The Home Telephone Company has 300 girls in its employ, and has a special secretary to look after their welfare. Miss Browne felt that good reading would be a desirable feature of "Central" and made application to the Public Library for a new branch at this request. The request was granted, Librarian Lummis said: "This is precisely one of the special functions this library should fulfill. Perhaps there is no other class of people whose culture or betterment is so much abused and hard-worked telephone girls. I believe that anything which is done to make life richer for her, anything that can be done for her comfort or her education, is a distinction." The Home Telephone Company has therefore made a deposit station of the Public Library and in return has been sent to it. These are charged to the company, which is responsible for any damage, and in return one of its own employees without expense to the library in attendants or otherwise.

AT THE COURTHOUSE.

JUSTICES' PAY IS COLLECTED.

LONG WAIT FOR THE MONEY ENDS IN JOY.

Sumnerfield and Selph Are Happy Over Outcome, but Pierce and Stephens Do Not. Will Fight Still to Retain Fees of Office.

Justices John W. Sumnerfield and E. E. Selph, with the happiest smiles they have worn for three long months, went to the office of the County Auditor yesterday morning and departed cheerfully with their salaries. They went to get real money from the County Treasury.

Sumnerfield wanted all kinds, and left the Courthouse with every pocket stuffed with bills and coins, \$1000 in all. He said that he had been returning to his office, little brick courthouse, he found himself so overwhelmed with congratulations that he soon took refuge in flight, and set forth in search of his creditors. These, too, greeted him effusively.

Two hours later, on his return to the Courthouse, his smile was still in full bloom as he declared that he had put some money in the bank, and would handle real cash every day hereafter.

Justice Selph did not radiate joyousness, and took his good fortune quietly, but his usual benevolent expression seemed to warm him more than formerly. The possession of real money had mellowed him if it did not improve him.

The salary of the justices, provided for by an act of the last Legislature, has been held up for months through the action of Attorney H. H. Appel, ostensibly acting simply as a citizen of Los Angeles. In writing a letter to Auditor Dow regarding his refusal to recognize the claims of the new justices, this letter, dated April 26, calls the attention to the legislative enactment unconstitutional. The court decided to review the action of the lower courts.

Justice Stephens had placed his faith in the decision of the court, and, accordingly, pending the decision of the court, Justice Stephens declined to do business and will maintain his right under the law. He will press a claim in the courts, that his remuneration cannot legally be changed from the rate established by the Legislature during the term of his office.

By stipulation with the District Attorney, Justice Stephens will have custody of his fees hereafter until the contention of Justice Pierce has been passed upon by the court.

The income of Justices Pierce and Stephens was between \$500 and \$600 a month from the salary system which was substituted by the Legislature, in creating two new justices courts, is but \$250 a month.

DEFENDANT AS ATTORNEY.

JAILER AGUIRRE ASSOCIATE.

Louis Hoffman, held in the County Jail in default of a peace bond yesterday, completed an answer to a complaint for divorce filed last week by

Laura Hoffman. The defendant names himself as attorney for the defense, but was obliged to retain associate counsel to secure the release of the answer with the County Clerk.

Jailer Martin Aguirre was prevailed upon by his guest, Hoffman, to accept the role of associate counsel long enough to file the papers.

Hoffman was put under bonds to keep the peace on account of a rough house he is said to have created in the course of a disagreement with Mrs. Hoffman and the latter will present the incident as a part of her grounds for divorce.

Hoffman's answer covers twelve pages of foolscap, and has been painstakingly prepared. His apparent intention is to offer a spirited contest when his wife's suit comes to trial.

BURGLARS' BOOTY.

BURGLARS' BOOTY.

CROOKS IN SAN BERNARDINO JAIL WORKED HERE.

Detectives Recover Several Thousand Dollars' Worth of Jewelry Which the Gang Had Stolen in This City During Month of June—Two Additional Arrests Made Yesterday.

With a trunk full of stolen jewelry and silverware, seized from the Pecos-Jones-Blake gang's cache in San Bernardino yesterday, the detectives are recovering valuable property carried away by the gang with numerous burglaries in the city. For some reason the police are suppressing the facts in the case, although the alleged burglaries in Los Angeles have been recovered. It is rumored that two arrests were made yesterday in Los Angeles in connection with the gang's operation. It is said that a "plant" was dug up yesterday in this city in which a list of stolen jewelry was found.

Detectives Boyd and Jones returned yesterday from San Bernardino where the five members of the gang are in jail. They brought the booty back with them, with lists of stolen jewelry, which a number of diamonds were found.

Much of the silverware which was recovered has been partly melted. In many instances the "swearing" has been picked from rings and the gold bands melted. The identity of considerable property has been destroyed in this way. It appears that the work was done in a small crucible, as the mould is in small chunks.

Detective Boyd said last night that he had been to San Bernardino and talked with the members of the gang. He said that the "swearing" was picked from rings and the gold bands melted. The identity of considerable property has been destroyed in this way. It appears that the work was done in a small crucible, as the mould is in small chunks.

THE INFERIOR COURTS.

TRY TO SUPPRESS ALL EVIDENCE.

INTIMIDATION USED BY JAPS IN LIQUOR CASES.

Men Interested in "Blind Pigs" Threaten to Kill Witnesses if They Testify Against Owners of Unlawful Joints. Several of Which Were Raided Recently by Police.

For more than an hour yesterday afternoon, Justice Freerich, with the aid of interpreters, tried to find out who had sent threatening letters to certain Japanese students called as witnesses to prosecute liquor cases. These men had been tried to get out of town and not show up at the trial on penalty of receiving rough treatment from their fellow countrymen.

One witness sent his regrets to the police department a few hours before the time for the trial to be held. He notified the officers that certain of his countrymen would kill him if he testified against them, and that, having no intention of deserting to the United States, he desired to be excused from trial on penalty of receiving rough treatment from their fellow countrymen.

The police sent a guard to the Japanese quarter, and caught the witness as he was about to leave for Tropic. Under guard he was taken to court, and there, after being assured that he would not be molested, he searched his pockets and found a letter from a Japanese dealer. A Japanese long was seemed to be scheduled, but the police said that they will be able to prevent trouble among the little brown men.

Frank Okana, a fine specimen of the Japanese race, understood the English language and was a native-born citizen of this country, and that he was willing to testify. He was hurried to the witness stand, and told that he knew of a place where he could be held this morning from the Breese undertaking parlors. Rev. Baker, P. Lee of the city is a branch station of the San Francisco office.

SEPARATE REVENUE DISTRICT.

The revenue of this section is increasing so rapidly that in the opinion of Deputy United States Revenue Collector Hocking, a new district may be formed with Los Angeles as the center for the purpose of the revenue keeping a watch on the liquor sold in the Japanese settlement.

The Japanese are fighting the case against them. They are exerting effort to prevent conviction, and some of their most influential men are said to be behind the liquor trade.

Two of the smaller dealers were tried yesterday. P. Kato was fined \$75 for selling liquor without a license. Miss S. Niki pleaded guilty, but sentence was suspended in her case, after the promise to stop selling liquor.

There are six other cases pending. These men are all proprietors of large establishments. The police are now holding several dozen bottles of liquor secured from these places. In each instance, evidence against the Japanese, since white men could not gain entrance to the places.

TO FIGHT LAND GRABBERS.

Federal District Attorney Coming from Portland to Investigate Imperial Valley Frauds.

It is believed that United States District Atty. W. C. Bristol of Oregon, who aided in the prosecution of government land grabbers in that state, will direct the forthcoming in-

Investigation of the reported Imperial Valley land frauds.

Although it was reported yesterday that Bristol would come to this city, he officials at the Federal building protested to know nothing about his plans.

George Lawler, United States District Attorney for the Southern District, will be absent some time, according to his deputy. It is believed he will confer with Federal officials in Portland, where land grab was fought so successfully. The standing and influence of the persons whose names are coupled with the stories of land frauds in the Imperial country necessitates able prosecutors and keen detective service men to obtain the evidence.

Detective Boyd said last night that he had been to San Bernardino and talked with the members of the gang. He said that the "swearing" was picked from rings and the gold bands melted. The identity of considerable property has been destroyed in this way. It appears that the work was done in a small crucible, as the mould is in small chunks.

APPROPRIATION IS ADVOCATED.

Council Should Provide Fire Protection.

Firewriters Give This City Greatest Credit.

Department Improvement Sorely Needed.

Los Angeles today enjoys the largest fire protection given any city on the Pacific Coast by the fire writers, since the San Francisco fire department is the only one to hold this enviable position. The fire writers of this city have given up the protection in connection with her rapid growth, and have made a great city of nearly 100,000 people, and have given protection from fire when she was a city of 10,000.

Upon this excellent fire department, the fire writers of the smaller city that the fire writers of the Pacific Coast have given up the protection in connection with her rapid growth, and have made a great city of nearly 100,00 people, and have given protection from fire when she was a city of 10,000.

BULLET ENDS DIVORCE CASE.

DEFENDANT KILLS HIMSELF IN CENTRAL PARK.

H. W. Hollenberg Commits Suicide at an Hour That He Was to Have Appeared in Court to Defend Himself Against Charges of Non-support and Desertion.

With grim appreciation of excitement his act would cause in the Superior Court, H. W. Hollenberg, defendant in a divorce case, committed suicide in Central Park yesterday morning, just at the hour when the bailiff in Department six was calling him to appear.

Before going to the park the defendant man wrote a note to Attorney Waterman, who represented Mrs. Hollenberg in the divorce proceedings. What the note contained was never made public. That it was terse, and grimly humorous in touching on certain points of the divorce proceedings is known because of the fact that an Attorney Waterman read the note addressed to him he looked down at the face of the dead man and remarked: "Well now, you have put me in a nice hole." Waterman then pocketed the note and went away to notify Mrs. Hollenberg that the hand of fate had written her divorce decree for her. Later in the day the notice of postponement filed in the divorce case was changed to a dismissal and the last chapter of the man's life tragedy was completed.

Hollenberg, his wife and their little daughter came to Los Angeles more than a year ago from Minneapolis. Soon after their arrival here the couple quarreled and separated. Mrs. Hollenberg had means of her own and went to live in a pretty little home on Western avenue. Hollenberg became a wanderer. The divorce proceedings were based on the grounds of non-support and desertion. Yesterday morning, a short time after daylight, Hollenberg went to Central Park and seated himself on a bench opposite St. Paul's cathedral. He then committed suicide by placing a .38 caliber revolver to his temple and pulling the trigger. The body was not identified until noon, when Attorney Waterman returned to his office from court and there found the note.

Yesterday afternoon an inquest was held at the Pierce morgue and a verdict of suicide returned.

Hollenberg had made repeated threats to kill his wife if she sued for divorce, and on Wednesday night word came to Mrs. Hollenberg that her husband was about to carry his threats into execution. She appealed to the police for protection and two patrolmen were sent to her home on Western avenue. When Hollenberg appeared there the officers seized and searched him, but found no weapon. He soon left the house and was seen no more alive.

DEATH DUE TO ACCIDENT.

That Is Verdict of Coroner's Jury Which Investigated the Case of John G. Magg.

A Coroner's jury at Pierce Bros. morgue yesterday afternoon heard the evidence in the matter of the death of John G. Magg, proprietor of the Hill crest Inn, Third and Olive streets, who died Wednesday night from the effects of carbolic acid poisoning.

Magg had been in ill-health for more than a year, but recently his condition had improved. He had been taking his medicine from a large bottle. The liquid was dark colored. Wednesday night, by mistake, it is said, he got the wrong bottle, and drank three teaspoonfuls of carbolic acid. No explanation of how a man could have made the mistake of drinking carbolic acid from a bottle one-fourth the size of the bottle he intended using was offered at the inquest yesterday. A verdict of accidental death from carbolic acid poisoning was returned.

DEATH WAS ACCIDENTAL.

A verdict of accidental death was returned yesterday by a Coroner's jury at Sharp Brothers' morgue after investigation of the death of Miss Beale Emerson, who was killed Tuesday night while trying to alight from a car at Main and Washington streets.

The young woman was visiting relatives in Los Angeles, and was to have returned to Oceanside, Mo., within a few days. Accompanied by Mrs. Turner, at whose home she had been a guest, the young woman started for Chutes Park. She attempted to leave the car while it was in motion and was thrown to the street jarring and killed.

MAY HAVE KILLED HIMSELF.

Police are searching for J. W. Snider, an old soldier, 72 years old, who left his home on West Sixth street Wednesday night after writing a note announcing his intention of committing suicide. Snider had been suffering with kidney trouble for years, and in his note he stated that only a long rest would be of any benefit to him. He left his possessions in care of his wife, Mrs. Snider, No. 280 West Sixth street. Patrolmen have been ordered to keep a close lookout for the old man, and to search alleys and alleyways along his route in an effort to locate his body.

Under the New Pure Food Law

All Food Products must be pure and honestly labelled.

BURNETT'S VANILLA

was fifty years ahead of the Law. It was always pure Vanilla. Every bottle now bears this label: "Guaranteed under the Food and Drug Act, June 30th, 1906." No. 1. Number 2, which has been assigned to us by the U. S. Dept. of Agriculture.

REMANENTS OF 20c SPUN GLASS lining; black and all colors. Friday, yard **5c**

WRECKAGE SALE

On July 1 a solid freight train of men's clothing and furnishings en route to the Pacific slope collided with another train near Kansas City, the result being the cars were piled up, and some containing men's furnishings were partly burned. The clothing was scattered about but not damaged. As a great quantity was stolen the railroad could not deliver any of the goods as they had received them, consequently the company paid the shippers for the goods and sold them to us at our own figure. Tons upon tons of men's clothing and furnishings have been piled in our already crowded store. The clothing is not damaged at all—the men's furnishings are assorted to amount of smoke, and that will all wash out.

Commencing this morning, August 9, at 8 o'clock, We Place This Stock on Sale at a Ratio of About **10c, 15c and 20c ON THE DOLLAR**
